### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Village Alliance District Management Association, Inc. as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**NOTES TO FINANCIAL STATEMENTS**

Note 1 - Summary of Significant Accounting Policies

The Association

Village Alliance District Management Association, Inc. (Association), a not-for-profit organization, was incorporated in the State of New York on October 1, 1993. The Association is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for federal, state or local income taxes has been recorded. The Association does not believe its financial statements contain any uncertain tax positions. The Association primarily receives its support from a real estate special assessment levied by The City of New York (City) on properties located in the Village Alliance Business Improvement District (BID). Effective January 1, 2007, the Association expanded its boundaries to include additional properties north of the original district. The BID's boundaries are approximately: 8<sup>th</sup> Street from Sixth Avenue to Second Avenue, St. Marks Place, Astor Place, Sixth Avenue from 4<sup>th</sup> Street to 12<sup>th</sup> Street, University Place from 8<sup>th</sup> Street to 13<sup>th</sup> Street, and Broadway from 8<sup>th</sup> Street to 10<sup>th</sup> Street.

The Association's programs include the following: Security - providing increased public security through a combination of uniformed guards and a working relationship with the New York City Police Department; Sanitation - maintaining clean streets/curbs and garbage removal; Marketing and Promotion - promoting the district to residents and tourists and to retain and develop prospective businesses; Social Services - developing and implementing social programs and coordinate with other social service organizations located in the district; and Capital Projects - improving the overall appearance of the district through a combination of projects including facade improvements and public fixtures.

Basis of Accounting

The financial statements of the Association have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities.

Change in Accounting Principle

In fiscal year 2020, the Association adopted FASB ASU 2014-09 *Revenue from Contracts with Customers* using the full retrospective approach. Analysis of various provisions of the standards resulted in no significant changes in the way the Association recognized revenue, and therefore no changes to the previously issued audited financial statements were required on a retrospective basis. The presentation and disclosures of revenue have been enhanced in accordance with the standard.

Use of Estimates

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

**VILLAGE ALLIANCE DISTRICT MANAGEMENT ASSOCIATION, INC.**  
**NOTES TO FINANCIAL STATEMENTS**

Note 1 - Summary of Significant Accounting Policies (Continued)

Cash Equivalents

For the purposes of the statements of financial position and the statements of cash flows, the Association considers as cash equivalents money market funds and all highly liquid resources, such as investments in certificates of deposits and treasury bills, with an original maturity of three months or less.

Receivables

Receivables that are expected to be collected within one year are recorded at their net realizable value. Receivables that are expected to be collected in future years are recorded at the present value of estimated future cash flows. All receivables are expected to be received within one year and as such have been stated at their net realizable value with no allowance for uncollectable grants.

Property and Equipment

The Association capitalizes certain property and equipment with estimated lives of three years or more. Property and equipment are stated at cost, less accumulated depreciation. Depreciation of furniture and equipment is computed by the straight-line method over estimated useful lives ranging from three to ten years. Leasehold improvements are depreciated by the straight-line method over the life of the improvement or the term of the lease, whichever is shorter. Expenditures for repairs and maintenance are charged as an expense, and major renewals and betterments are capitalized.

Net Assets

Net assets, revenues, gains and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions - Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. This classification includes net assets designated by the board or management for a specified purpose.

Net Assets With Donor Restrictions - Net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature (endowment), where the donor stipulates that resources be maintained in perpetuity.

**VILLAGE ALLIANCE DISTRICT MANAGEMENT ASSOCIATION, INC.**  
**NOTES TO FINANCIAL STATEMENTS**

Note 1 - Summary of Significant Accounting Policies (Continued)

Revenue Recognition

The real estate assessment levied by the City is recorded by the Association when earned. The City remits these assessments to the Association in two installments. An allowance for doubtful accounts is not provided because all assessments are received in the current year. Assessment billing errors are recorded as a direct reduction of assessment revenue.

The Association recognizes contributions when cash, a noncash asset, or an unconditional promise to give is received. Conditional promises to give, which have a measurable performance or other barrier and a right of return, are not recognized until the conditions on which they depend have been met. Amounts received prior to the meeting of these conditions are reported as deferred income or refundable advances in the statements of financial position. As of June 30, 2020 and 2019, the Association did not have any conditional pledges that were not recognized.

All contributions are considered available for the Association's general programs unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor are reported as support with donor restrictions and increases in the respective class of net assets. Contributions received with donor restrictions that are met in the same reporting period are reported as support without donor restrictions and increase net assets without donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions.

Program service revenue relates to fees received in exchange for program services. Revenue is recognized when the program service is provided. Any revenue received which has not been earned is recorded as deferred income.

The Association received grants from governmental agencies. Depending upon the terms of the grant, it can be either an exchange transaction or a contribution. In accordance with grant provisions, the grant can be an expense reimbursement grant which requires that approved expenses be incurred prior to reimbursement by the grantor. Other grants permit advances of grant funds or full payment of grant funds at the start of the grant. If the grant is an exchange type grant, all unreimbursed expenses, for approved purposes, as of year-end are recorded as receivables and any unexpended advances are recorded as refundable advances. If the grant is a contribution, it is recognized in accordance with the contribution recognition policy described above.

During the year ended June 30, 2020, the Association received \$70,767 of Paycheck Protection Program funds from the U.S. Small Business Administration. Management has determined that the correct model to follow is the grant model and that the purpose-related conditions imposed on the grant were met by year-end. Therefore, the full amount has been recognized as revenue. The amount is included with government grants and contributions in the statement of activities for the year ended June 30, 2020.

**VILLAGE ALLIANCE DISTRICT MANAGEMENT ASSOCIATION, INC.  
NOTES TO FINANCIAL STATEMENTS**

Note 1 - Summary of Significant Accounting Policies (Continued)

Expense Allocation

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of activities and in the statements of expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited. The Association allocates salaries and related expenses based on estimated time and effort and other expenses are allocated based on usage. The Association classifies expenses, which are not directly related to a specific program, as Management and General expenses.

Donated Services

Directors and officers have made a significant contribution of their time to develop the Association and its programs. No amounts have been recognized in the accompanying statements of activities because the criteria for recognition of such efforts under GAAP have not been satisfied. Due to the lack of objective criteria, management did not estimate the total value of these services for 2020 and 2019.

Advertising Costs

The Association uses advertising to promote its programs among the audience it serves. The production costs of advertising are expensed as incurred. During fiscal years 2020 and 2019, advertising costs totaled \$13,662 and \$28,710, respectively.

Note 4 - Pension Plans

Effective May 1, 2012, the Association adopted a qualified cash or deferred compensation plan under section 403(b) of the Internal Revenue Code. Under the plan, employees may elect to defer up to twenty percent (20%) of their salary, subject to Internal Revenue Service limits. In addition, the plan allows for the Association to make discretionary contributions based on the participant's salary. Employees who normally work more than 20 hours per week are eligible for discretionary contributions after 12 months of service to the Association. As of June 30, 2020 and 2019, the Association made and accrued contributions of \$8,019 and \$9,648, respectively, to the plan. The plan was amended on July 1, 2013. The amendment excluded employees who work less than 1,000 hours in a plan year and increased the time of service required for eligibility to participate in the plan to 24 months.

Note 5 - Concentrations

The Association maintains its cash and cash equivalents accounts with major financial institutions. The Federal Deposit Insurance Corporation (FDIC) insures bank deposits up to \$250,000 per financial institution. At times, the balances of the accounts may have exceeded the limits during the years ended June 30, 2020 and 2019.

The Association, the New York City Economic Development Corporation and the New York City Department of Transportation jointly entered into various agreements with contractors for enhanced sidewalks, tree guards and the installation of lighting fixtures related to a capital project. Construction commenced in fiscal year 2001, and was completed during fiscal year 2003. The Association is required to provide regular maintenance to certain improvements.

The Association leases office space under two non-cancelable operating leases. As of June 30, 2020, minimum aggregate annual rentals are as follows:

Note 10 - Liquidity and Availability of Financial Assets

The Association regularly monitors liquidity required to meet its operating needs and other obligations as they come due. For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Association considers all expenditures related to its ongoing activities to be general expenditures. Amounts available for general expenditures over a 12-month period include donor-restricted amounts that are available for ongoing programmatic and support expenditures.

The following reflects the Association's financial assets, as of June 30, 2020 and 2019, reduced by amounts not available for general use within one year because of contractual, donor-imposed, or internal restrictions and designations:

Note 11 - Public Plaza License

The Association signed a five-year license agreement, with renewal options, with the New York City Department of Transportation (DOT) to manage and maintain multiple public pedestrian plazas located within the district. The agreement allows the Association to collect special event concession fees, contributions and sponsorships which will be used to offset the cost of managing and maintaining the plazas. Any excess revenue derived from the plazas will be kept in an accrual fund. The accrual fund will be used for any future shortfall in revenue needed to provide the services set forth in the agreement. If at any time the accrual fund contains more than three times the public plaza budget, the excess amount of funds shall be used to provide any services and/or alterations in the public plaza. At the end of the term of the license agreement or at termination, the balance of the accrual fund shall be used to provide any services and/or alterations in the public plaza.

Note 12 - Subsequent Events

Subsequent events were evaluated for potential additional disclosures through December 1, 2020, which is the date the financial statements were available to be issued.
